

Effective Learning Skills

A degree from a British, American, Australian or Canadian university will give you an international perspective and will undoubtedly help you in your career. However, the ways these degrees are taught can differ significantly from methods elsewhere in the world with, for example, an emphasis on independent thinking and analysis rather than rote learning. As a result students from these areas can struggle and perform poorly, which is a waste of their time and money.

The solution is the Effective Learning Skills course. This section of the Teaching Zone is designed to help and support students who are new to study, returning to study after a break or are not familiar with the skills you need to study effectively. It is particularly relevant if you plan to go on to further study at university.

How do I study and how long will it take?

Studying online is extremely flexible, as you can study at the time and place that best suits you, without the cost and hassle of getting to classes. Everything you need is provided online in the Teaching Zone on our website, so you won't ever miss anything, and you can repeat sections until you fully understand them. All you need is Internet access through a phone, tablet, laptop or PC!

The Effective Learning Skills course contains the following sections:

- Maths basic
- Maths for business education
- Personal development, planning and goal setting
- Reviewing, reading and researching skills
- Effective learning skills
- Effective communication skills
- Assignment writing skills

Plus regular live study skills workshops

The sections contain a mixture video clips, reading material and exercises. The time taken will depend on how easy you find the content.
