

Project Management Professional (PMP) Certified Associate in Project Management (CAPM)

Project managers can work in virtually any industry, with any methodology and in any location. The Project Management Institute (PMI) offers certifications as Project Management Professional (PMP) and Certified Associate in Project Management (CAPM).

The PMP is the most recognised project management certificate worldwide. It demonstrates to employers, clients and colleagues that you have the knowledge, experience and skills to bring major projects to successful completion. The CAPM is for those who want to add project management skills into their current role and demonstrates your understanding of the fundamental knowledge, terminology and processes of effective project management.

The course covers the following knowledge areas:

- Project management framework
- Project management processes
- Project integration management
- Project scope management
- Project time management
- Project cost management
- Project quality management
- Project HR management
- Project communications management
- Project risk management
- Project procurement management
- Project stakeholder management
- Professional and social responsibility

How do I study and how long will it take?

Studying online is extremely flexible, as you can study at the time and place that best suits you, without the cost and hassle of getting to classes. Everything you need is provided online in the Teaching Zone on our website, so you won't ever miss anything, and you can repeat sections until you fully understand them. Plus you have a personal tutor you can contact if you have any questions. All you need is Internet access through a PC, laptop, tablet or phone. The course provides 35 hours of tuition.

Project Management Professional (PMP) Certified Associate in Project Management (CAPM)

Entry requirements

PMP prerequisites

Either: Secondary degree with 7,500 hours leading and directing projects

Or: Four year degree with 4,500 hours leading and directing projects

CAPM prerequisites

Secondary degree and 1,500 hours of project experience

How is it assessed?

To obtain the PMP you must have 35 hours of project management education, and for the CAPM you must have 23 hours of project management education. This course therefore fulfils the requirements for both certificates (and must be completed before you register for the exam). It provides you with guidance on what to expect, teaching you the format and structure of the exam and providing tips and study methods to help you prepare.

The PMP is assessed by a 200 question four hour multiple-choice exam and the CAPM is assessed by a 150 question three hour multiple-choice exam.

Why iQualify UK?

Six great reasons:

- high quality online courses from a trusted London based educational institution offering UK Government approved accredited qualifications
- a supportive teaching environment run by a team of extremely experienced British educational professionals and academics
- everything you need is online, and live classes allow you to interact with your tutors and fellow students
- great value for money, with flexible payment options and discounts when paying in full
- no hidden extras, as all costs are included as part of enrolment – and valuable additional content provided for free
- you can try online learning before you buy with our free trial option
